

ERN-Skin Scientific Days

2-3 July, 2025

Event program

08:30	09:00	Registration		
09:00	09:40	Research Update: Neurocutaneous syndromes and epilepsy	Stéphane Auvin	Paris, France
09:40	10:20	Research Update: Inflammation in rare autoinflammatory/autoimmune diseases: Lessons from skin	Fabrizio Debenedetti	Rome, Italy
10:20	10:50	Break		
10:50	11:10	Communication: Pregnancy and family planning: a publication of the patient transversal group	Marie-Claude Boiteux	Skin ePAG
11:10	11:20	Short Communication: Loss of autonomy in the elderly subjects	Saskia Oro	Paris, France
11:20	11:45	Communication: Genetic testing in genodermatoses	Aude Beyens	Gent, Belgium
11:45	12:10	Communication: Capillary malformation-arteriovenous malformation syndrome and neurological risk	Marta Ivars	Barcelona, Spain
12:10	12:20	Clinical case: Case series of lichen planus-mucous membrane pemphigoid	Mariam Deriouch	Rouen, France
12:20	12:30	Clinical case: SAPHO syndrome in monozygotic twin	Teresa Oranges	Florence, Italy
12:30	13:45	Lunch Break		
13:45	14:10	Communication: Syndromic hidradenitis suppurativa	Angelo Marzano	Milan, Italy
14:10	14:20	Clinical case: Late puberty and induction on EB patients	Giulia Rodaris	Milan, Italy
14:20	14:30	Clinical case: IRF6 patients	Nicolas Peschel	Erlangen, Germany
14:30	14:40	Clinical case: Characterizing Hereditary Mucoepithelial Dysplasia: Evidence from Two Clinical Cases	Valentina Ruffo di Calabria	Florence, Italy Paris, France
14:40	15:10	Break		
15:10	15:20	Clinical case: Long-read sequencing cracks unsolved cases and further improves genome diagnostics in Epidermolysis Bullosa	Agnes Grutters	Groningen, Netherlands
15:20	15:30	Clinical case: The use of dupixent in patients with hyperkeratotic bullous pemphigoid	Dario Didona	Rome, Italy
15:30	15:40	Clinical case: Skin barrier abnormalities in KRT10-epidermal differentiation disorder (epidermolytic ichthyosis)	Thomas Trafoier	Innsbruck, Austria
15:40	15:50	Clinical case: A case of TEN in patient with IgA nephropathy	Edita Marvanova	Brno, Czech Republic
15:50	16:00	Clinical case: Bullous pemphigoid occurring during cemiplimab treatment for squamous cell carcinoma arising from hidradenitis suppurativa	Réka Palatka	Debrecen, Hungary
16:00	17:00	On going scientific projects by ERN-Skin « Big Groups »	Chairs	4 x15mn (60 mn)
17:00	17:45	Quizz/voting proposed by each sub-thematic group		9x5mn (45mn)
17:45	End Day-1			

08 :30	09:00	Registration		
09:00	09:40	Research Update: Update on NF1 and Legius syndrome	Eric Légius	Leuven, Belgium
09:40	10:20	Research Update: Matrix alterations and their impact in the 'Mendelian Connective Tissue Disorders'	Laurent Debelle	Reims, France
10:20	10:40	*Rising star*: PPK - the role of SERPINB8 and SERPINA12	Evelina Brandt	Helsinki, Finland
10:40	11:10	Break		
11:10	11:30	*Rising star*: Inflammation in Dystrophic Epidermolysis Bullosa	Meropi Karakioulaki	Freiburg, Germany
11:30	11:50	*Rising star*: Proteomic analysis of cytokines involved in MMP in comparison with BP and healthy donors	Bilal Tedbirt	Rouen, France
11:50	12:00	Clinical case: Artesunate treatment in JEB	Sophie Sinz	Salzburg, Austria
12:00	12:10	Clinical case: CALM multiple with LZTR1 gene mutation	Julie Terrasson	Leuven, Belgium
12:10	12:20	Clinical case: Efficacy and safety of dupilumab in Hailey-Hailey disease: a multicentre retrospective French cohort study	Maela Severino- Freire	Toulouse, France
12:20	12:30	Clinical case: Lichen planus like presentation of X-linked lymphoproliferative disorder	Katia Henostroza	Barcelone, Spain
12:30	12:40	Clinical case: Ulcerative cholangitis and severe pemphigus-like in a child: a therapeutic challenge?	Anne Welfringer	Paris, France
12:40	12:45	World Congress on Rare Skin Diseases 2026 in 3 words Take home message & next meetings	Christine Bodemer	Paris, France
12:45	End Day-2			

Event Location

Imagine Institute,
24 Bd du Montparnasse,
75015 Paris, France.

How to get to the event by public transport?

4 Metro stations

Duroc (Lines 10 and 13)
Sèvres-Lecourbe (Line 6)
Pasteur (Lines 6 and 12)
Falguière (Line 12)

6 Bus lines

Lines 28, 70, 82, 86, 89, and 92
Duroc or Hôpital Enfants Malades stop
