SYMPOSIUM ON EPIDERMAL DIFFERENTIATION DISORDERS (EDDs) **16-17 September 2025**

The symposium will consist of 2 separate meetings on epidermal differentiation disorders (including ichthyosis, palmoplantar keratoderma, M. Darier and Hailey-Hailey):

16 September: Expert Meeting

Location: Hotel Louis, Versailles

Focus: Group discussions and strategic planning on epidermal differentiation disorders with experts, young researchers, and patient representatives.

Goals: Identifying knowledge gaps, setting education priorities, and outlining research targets for the coming years.

17 September: EADV Congress subspecialty session

Location: Paris Convention Centre (EADV congress 17-20 Sept 2025)

Focus: Lectures covering the new classification of epidermal differentiation disorders, updated therapeutic guidelines for ichthyosis, emerging therapeutic perspectives

Goals: Update clinicians interested in or looking to expand their understanding of epidermal differentiation disorders
